

*Preliminary program (29th September, 2022)*

## **Meeting of the EAPS working group on register-based fertility research**

**15<sup>th</sup>–16<sup>th</sup> December, 2022**

**Max Planck Institute for Demographic Research, Rostock (and virtual)**

### **Program, Thursday 15<sup>th</sup>**

- 9:00–9:10 Welcome
- 9:10–10:30 Recent fertility trends in European countries
- 10:30–11:00 Coffee
- 11:00–12:20 Unplanned, planned, and assisted fertility
- 12:20–13:30 Lunch
- 13:30–14:30 Novel approaches to analyzing fertility
- 14:30–15:00 Coffee break
- 15:00–16:45 Exciting register data for fertility research
- 16:45–17:00 Break
- 17:00–18:00 Poster session (on site only)
- Break and walk to the dinner
- 19:00–20:00 Dinner
- 20:00–20:30 Roundtable discussion

### **Program, Friday 16<sup>th</sup>**

- 8:30–9:50 Fertility in the context of partnerships
- 9:50–10:10 Coffee break
- 10:10–11:30 Economic resources, gender, and fertility
- 11:30–12:30 Lunch
- 12:30–13:30 Fertility and life course outcomes
- 13:30–13:35 Closing

Instructions for presenters:

Length of an oral presentation: 13 minutes (+ 7 minutes for discussion)

Size of a poster: A0 (841 x 1189 mm / Portrait)

## **Program, Thursday 15<sup>th</sup>**

### **Recent fertility trends in European countries** (chair: Aiva Jasilioniene)

1. Gunnar Andersson: Fertility trend changes during the Covid-19 pandemic in Sweden
2. Martin Bujard: Fertility during COVID-19 pandemic: Insights on social differentials based on data of the federal birth statistics
3. Sanan Abdullayev: Effects of the parental leave scheme on fertility behaviour in Estonia
4. Nadja Milewski: Immigrants' contribution to host-country fertility over time: A systematic approach accounting for different migrant definitions and fertility indicators

### **Unplanned, planned, and assisted fertility** (chair: Mikko Myrskylä)

1. Judtih C. Koops: The influence of family planning and unplanned pregnancies on socio-economic family formation and stability in low fertility settings
2. Christine Schnor: New insights into the socio-economic gradient in single motherhood using information on mode of conception from Belgian birth certificates linked to register data
3. Alice Goisis: Having a live birth following medically assisted reproduction: does socio-economic status matter?
4. Jenny Chanfreau: Contribution of MAR to the TFR in Norway: Trends & composition

### **Novel approaches to analyzing fertility** (chair: Joshua Wilde)

1. Risto Conte Keivabu: Climate change and fertility
2. Larry Wu: A cohort discontinuity approach to causal inference for vital rates
3. D. Susie Lee: Age at first reproduction, mortality, and lifetime reproductive success: Proposal for a study using complete reproductive history data

### **Exciting register data for fertility research** (chair: Jessica Nisén)

1. Mosidi S. Nhlapo: Estimating subnational level fertility from incomplete civil registrations data- A case of South Africa, 2011-2016
2. Katie Genadek: Administrative data for measuring fertility and families in the U.S.
3. Leslie Root: Using administrative data from the U.S. Census Bureau to generate parity-specific fertility rates
4. Marcus Fraga: Is the non-mandatory tax declarations in Canada a reliable dataset? A study on the quality of the Longitudinal Administrative Databank (LAD) to compare the fertility of immigrant women with that of native women
5. Olinca Páez: Birth certificates versus birth registries. Estimating the gaps in fertility estimates in Mexico through the confrontation of information sources

### **Poster session**

1. Khadijeh Asadisarvestani: Pronatalism, family, and fertility changes in Iran since the early 21st century
2. Anna Barbuscia: Third and higher- order fertility across Spanish regions
3. Eva Berde: The propensity to have children in Hungary, with some examples from other European countries
4. Dendi Handiyatmo: Observing methods of fertility estimation in Indonesia
5. Sanna Kailaheimo-Lönnqvist: How is a child's death related to an individual's final parity?
6. Alina Pelikh: Partnership stability in couples who pursue parenthood: Does medically assisted reproduction matter?
7. Steffen Peters: The prospective association between personality factors and family formation processes among males in Sweden. Evidence from register data
8. J. Sebastian Ruiz-Santacruz: The rise of the mean absolute age difference (MAAD) at first child in Spain
9. Henrik-Alexander Schubert: Missing women? The relevance of population imbalances for male childlessness in Finland
10. Sander Wagner: Wealth and fertility: Evidence from Danish registries

## **Program, Friday 16<sup>th</sup>**

### **Fertility in the context of partnerships** (chair: Trude Lappegård)

1. Alice Rees: Heterogeneity of partnership trajectories associated with lifetime childlessness in Belgium
2. Axel-Peter Kristensen: Partnership histories and social fatherhood as pathways into childlessness among men
3. Linus Andersson: Partnership contexts of births and their contribution to cohort fertility rates - an application using Finnish register data
4. Jan Saarela: A matter of time: Bateman's principles and mating success as count and duration in contemporary Finland

### **Economic resources, gender, and fertility** (chair: Bernhard Riederer)

1. Raffaele Guetto: Income and fertility: Novel evidence for Italy (Tuscany region) from administrative data on social contributions and tax returns
2. Alessandra Trimarchi: Partners' relative resources and the transition to second birth in Austria
3. Elisa Brini: Couple's fertility in Norway: partners' characteristics and transition to first, second and higher parity births
4. Rishabh Tyagi: Closing in the gender gap: Does the female's job loss matter as much as males' job loss in recent years for their fertility? A register-based study for Norway

### **Fertility and life course outcomes** (chair: tba)

1. Sander Wagner: Labor market consequences of motherhood in France and Germany: A cross-country comparative project using employee registry data
2. Hector Pifarré i Arolas: The effect of childbirth on job separations
3. Marta Seiz: Educational selectivity in fertility and birth outcomes in Spain during and after the Great Recession
