

Session Program

15-20 Mar 2026

Solar Orbiter - IRIS - ADITYA - Joint Workshop

Magnetic field & impact on irradiance, atmosphere, etc.

Berlin, Harnack Haus

Monday 16 March

11:20

Magnetic field & impact on irradiance, atmosphere, etc.

Session | Location: Berlin, Harnack Haus

11:20-11:50 Magnetic fields and modelling of irradiance variations

Speaker

Theodosios Chatzistergos

11:50-12:05

Stereoscopic disambiguation of solar vector magnetic fields using observations from SO/PHI and SDO/HMI

Speaker

Xiang Li

12:05-12:20

Influence of magnetic-field distribution on the spatio-temporal properties of EUV brightenings in the solar atmosphere

Speaker

Nancy Narang

12:20

13:35

Magnetic field & impact on irradiance, atmosphere, etc.

Session | Location: Berlin, Harnack Haus

13:35-13:55 Impact of small-scale magnetic fields on the solar atmosphere

Speaker

Milan Gotic

13:55-14:10

Probing the impact of viewing direction on the magnetic field evolution of an active region with SO/PHI and SDO/HMI

Speaker

Jonas Sinjan

14:10
