

Session Program

15-20 Mar 2026

Solar Orbiter - IRIS - ADITYA - Joint Workshop

Polar Science

Berlin, Harnack Haus

Tuesday 17 March

09:00

Polar Science

Session | Location: Berlin, Harnack Haus

09:00–09:30

The Sun's Polar Magnetic Fields: Current Knowledge, Open Questions, and the Promise of SO/PHI

Speaker

Gordon Petrie

09:30–09:45

Dynamic processes of the polar cap build-up

Speaker

Kinga Albert

09:45–10:05

The first out-of-ecliptic observation of the polar magnetic field of the Sun with SO/PHI-HRT

Speaker

Daniele Calchetti

10:05–10:20

Comparison of Predicted Solar Polar Fields with Solar Orbiter Observations

Speaker

Jon Linker

10:20–10:35

Full-disk polar magnetic field maps registered with SO/PHI-FDT

Speaker

Artem Ulyanov

10:35–10:50

online - The Solar Polar-orbit Observatory (SPO) mission

Speaker

Hui Tian

10:50
